The convention is open to everyone from health care fraternity including physicians, dental surgeons and allied health care professionals.

It is affably announced that the 26th Biennial international convention of PIMA will give another opportunity to present a meaningful and state of the art program to the doctor's community. The designated team of well-read physicians and medical teachers has the task of making a balanced two days' program: a mixture of Spiritual quintessence, Medical Science, Education, Ethics, issues related to update patient care, Health Advocacy, health care management and health policy.
